

# CMCO Skills Assessment User Guide

July 2015

## Overview

The CMCO Skills Assessment provides a simple way to determine your level of knowledge and preparedness for the Certified Mission Critical Operator (CMCO) exam by taking a 10-item quiz representative of the types of questions on the CMCO exam.

The assessment can be taken as many times as you would like. Score results will be displayed at the end of the quiz.

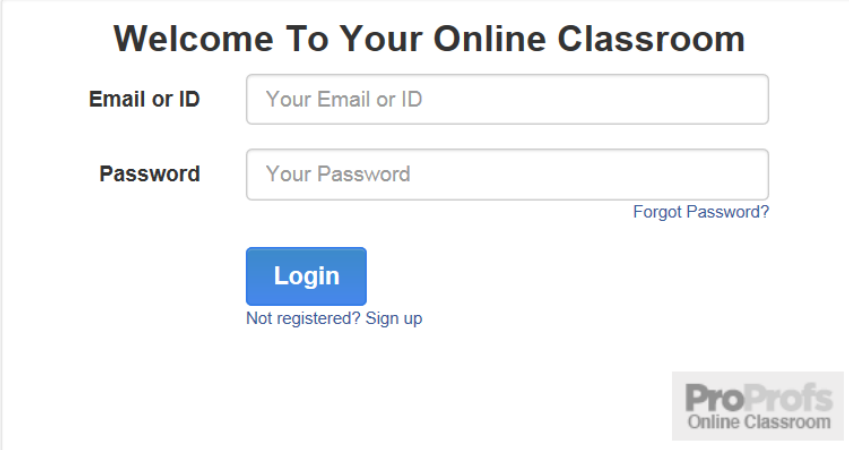

It is not guaranteed that someone who answers these questions correctly will also pass the CMCO exam. Use of this assessment tool does not alter CMCO certification status, if any. The users and the administrators of the quiz make use of this tool strictly for their own informational purposes.

For questions, please contact [examdev@comptia.org](mailto:examdev@comptia.org).
